

ENTERPRISE KNOWLEDGE

Enterprise Knowledge is the world’s largest dedicated knowledge management consultancy. Our core services include strategy, design, and development of knowledge and information management systems, with proven approaches for project strategy and road mapping, content strategy, change management and communication, and agile transformation and facilitation. All too often, organizations experience their Knowledge and Information Management initiatives failing because they are overly complex or do not address the specific needs of the organization and its end users. Our mission is to enable organizations to maximize their information assets through practical solutions that provide measurable value.

We are a registered small business to work directly for the **federal government** but also **count a host of Fortune 500 companies, global non-profits, non-governmental organizations, and dynamic private businesses amongst our clients.** As an EK team member, you will have the opportunity to learn from enthusiastic colleagues, take advantage of our unique **benefits**, and help build our innovative culture. Don’t just take our word for it – we were recently featured as one of **Washington Business Journal and Inc. Magazine’s 2021 Best Workplaces!**
